WORK EXPERIENCE	Glance , Bangalore, KA <i>Software Development Engineer 2</i> Built a content creation platform from scratch, built content extraction from web using heuristic based crawlers, and used image captioning models to automated content filtering at scale. The tool helps streamline creation of ~10,000 glance stories and saves ~150 hours of manual effort by each content designer monthly. Worked on optimizing large-scale data pipelines and content serving infrastructure, that serves 150 million users and ingests 10TB data every day to save ~20k\$ in monthly infrastructure cost.	Jun 2018 - Jul 2021
